

LEADING ENJOYMENT OF CLEANING LIFE

With optimal appearance and excellent performance, S1900/S1900D has powerful cleaning ability to remove dust and rubbish debris in one pass, with superior and solid structure for continuous dust-free operation, equipped with overhead guard, widely used in different environment. S1900/S1900D is benchmark product in battery operated sweeper, representing premium manufacturing level.

● S1900/S1900D SWEEPER

◎ Features

- ① Integrated steering wheel, LCD dashboard, intelligent operation.
- ② Patented side brush anti-collision rolling protection disc, side brush with tilt angle, rubbish not easy to throw out.
- ③ 1900mm side brush, 800mm main brush, large sweeping width and high work efficiency.
- ④ Main brush length 800mm, ϕ 430mm, three kinds of brush filaments with a single hole and industrial safety lock.
- ⑤ High efficient and dustproof 6m² filter, waterproof and filtered, intelligent dust box vacuum induction system automatically shake dust.
- ⑥ Stainless hopper, effective capacity 110L, flat design to prevent the garbage spilling over with the rails to pull and push.

Technical Specifications

Voltage/traction	48V DC/2200W
Main brush motor/side brush motor	1000W/140Wx4
Vacuum motor /vibrating motor	218W/100W
Cleaning path(with/without side brush)	1900mm/800mm
Filter area	6m ²
Hopper volume	160L
Water tank volume	90L
Weight	850kg
Size	L2260xW1900xH2150
